Course Capacity: **35 Registration with Woodie Fite Senior Center Staff required**
Location: 8750 Cindy W. Chaffin Blvd, Douglasville, GA 303134

Course Description:

The Seniors n'Tech is a computer and phone technology (PC, Mac, Android, and iPhone) course designed to assist "Senior" Tech Scholars with the latest and greatest information pertaining to their personal electronic devices and general information to keep them in the loop of the ever-changing technology era. This course has an intentional mission to bridge the digital divide many participants may face due to limited or non-existent resources to effectively explain the inner workings and common use of daily devices. Throughout the courses in each monthly topic, information will be presented in a format to ensure proper and accurate knowledge is provided and assessments to evaluate the retention and mastery of the lessons. At the conclusion of each topic, various certificates will be awarded based on levels of participation, mastery of skills, and abilities to demonstrate and instruct others. This course also takes general technology subjects and create an evolving increase in information levels and practical exercises each quarter and is identified as: Introductory, Fundamental, Intermediate, and Advance. Seniors n'Tech is great for beginners and challenging enough for those seeking a simple refresher.

Class Timeline:

- 10:00 - :05 - **Power Up** (Sign in and Ready Devices)
- 10:05 - :15 - **Total Recall** (Review last session and key topics)
- 10:15 - :00 - **Data Input** (new interactive learning session)
- 11:00 - :30 - Quality Assurance (apply what you learned)
- 11:30 - :45 - **Q&A** (General questions on subject or other inquiries)
- 11:45 - :00 - **Power Down** (Preparation for next session and HW assignments)
